

WELCOME TO SALT CREEK SPA

A visit to Salt Creek Spa is an experience that benefits both body and soul!

We could not have asked for a more magical location, right beside the sea, and one that provides a fantastic backdrop for our equally fantastic Spa.

Here you will find our heated swimming pool, shallow pool, jacuzzi and sauna. If you need to cool off, our facilities also include a cold plunge pool.

Outside we have four heated springs, two on either side of the large pool house. Also outside, with its own path down to the sea, you will find our fabulous dry sauna, offering an incredible view out over the rolling waves.

On the upper floor, there are two relaxation rooms with large, comfortable beds, where you can enjoy a period of relaxation and reflection. The lighter Seaview room provides an incredible view of the Baltic Sea, while Fireview offers the chance to enjoy its centrepiece – a large open fireplace with a crackling fire.

Leave everyday life behind in the car park and let us take care of you!

THE CREEK EXPERIENCE

THE CREEK EXPERIENCE | 120 MIN, SEK 695

Imagine two hours of complete relaxation in an environment inspired by a tropical rainforest, where the four elements of earth, air, water and fire all feature prominently. Leave everyday life outside and step into peace and tranquillity

As soon as you enter the water and start to make your way slowly around the pool, you are enveloped in a gentle mist. Once your body is cocooned in warmth, it is time to begin the adventure, by treating your tired feet to some TLC. Salt from the Dead Sea softens your feet as you apply a refreshing face mask.

You are now ready to perform our various sauna rituals! Heat combined with cold has a rehydrating and stimulating effect. In our somewhat simplified version of a Turkish hammam, you soap and scrub your body while relaxing on warm stone benches. You will feel clean and completely relaxed. Next is our Rasul ritual with its special mineral-rich Moroccan clay wrap, which when combined with steam maximises the body's ability to absorb the minerals in the clay. Once the clay has dried, it is time for a hot shower. Conclude your spa ritual by applying rehydrating organic jojoba oil, which absorbs as you pass through our warm air shower.

The Creek Experience is a round-the-world trip – inspired by a variety of spa and sauna rituals. Travel with companions in a group of no more than six people. Our fantastic hosts serve as a compass, guiding your journey – while you perform the various rituals yourself, or with the help of your 'travelling companions'. This is the perfect experience to share; with your other half, or why not with your best friends or colleagues?

Price per person SEK 695

You need only bring your swimsuit or trunks. We'll take care of the rest.
